

Homeless Services Capacity Building

Topic	Issues	Draft/Potential Recommendations
Staffing Shortage	<ul style="list-style-type: none"> • Hard to find and hire Social Workers and other staff • Low salaries • High turnover • Education/Experience requirements create barriers to hiring • Challenging to hire peer positions based on education/experience requirements • DC residency requirement • Time consuming to post positions and hire 	<ul style="list-style-type: none"> • DHS host Job Fairs to raise awareness about staffing needs, support providers, and conduct onsite hiring services (ie. Background checks onsite) • Host frequent background check events for new provider hires to complete background check requirements onsite • Increase salary range of staff • Assess education/experience/residency requirements and make any needed changes to contracts • Support work being done with the Board of Social Work to promote quick and efficient hiring practices of social work candidates • Support alternative funding streams for providers to offer professional development opportunities, self-care incentives, bonuses, etc. • Review programs provided by local universities, certification programs, job training programs to understand where our providers can advertise their job needs (including BSW/MSW internships.)
Onboarding New Staff	<ul style="list-style-type: none"> • Heavy training requirements • No support for an organization to hire their own training specific to their staffing needs • Pressure of staffing quickly to immediately begin work detracts from an organization's ability to support their staff • Lack of training of the job performed by the provider 	<ul style="list-style-type: none"> • Review training requirements and make any needed changes to timelines, frequency, and amount of training required • Support alternative funding streams for providers to tailor training to the unique needs of their staff • Outline for provider on job specific training.
Administrative Costs	<p>Low indirect cost rates made administration of programming challenging</p>	<p>Ensure all contracts comply with the new DC nonprofit Fair Compensation Law</p>

Homeless Services Capacity Building

	<p>consistent implementation of the new DC Nonprofit Fair Compensation Law</p> <p>lack of flexible dollars to support indirect costs</p> <p>hard for new providers to start work if there is not access to funding to support administrative work</p>	<p>review current contract language regarding direct costs and make any needed changes</p> <p>support alternative funding streams to support providers indirect costs</p>
Procurement Process	<ul style="list-style-type: none"> ● RFPs are challenging to apply to resulting in new and current providers declining the opportunity ● Many providers do not have staff committed to grant writing ● Short lengths of time to complete the RFP application ● Inconsistent RFP requirements across the homeless services system ● RFPs tend to be released at the same time at the beginning of the Fiscal Year ● Not always given a heads up that RFPs will be released making planning challenging 	<ul style="list-style-type: none"> ● Review RFPs to simplify application process where possible ● Lengthen the amount of time providers have to apply to an RFP ● Support alternative funding streams for providers to hire grant writers to assist in the RFP application process ● Conduct multiple pre-bidders conferences to give flexibility so interested providers can attend; document all Q & A and allow time for written questions to be submitted, release a public and transparent FAQ document answering all public questions ● Consider staggering RFP release dates ● Maintain a public RFP calendar to help providers understand when RFPs will be released' ● Standardize RFP processes across all homeless services systems (singles, families, and youth)
Reaching New Providers	<ul style="list-style-type: none"> ● Potential new providers may not know about RFPs and opportunities in the homeless services system ● Important to give clear direction for new providers when applying to an RFP 	<ul style="list-style-type: none"> ● Share RFPs across partner agency listservs, the Mayors listserv, etc. ● Share RFPs via Social Media ● Consider an open/rolling solicitation until the PSH program reaches full capacity. Strategy would allow DHS to enroll new providers as qualified providers are identified. ● Develop targeted outreach plan for programs/agencies that provide housing services and supports (e.g.,

Homeless Services Capacity Building

		<p>DBH Act/CSA providers, EPD waiver providers, etc).</p> <ul style="list-style-type: none">● Identify DHS staff and/or provider partners to lead outreach efforts by presenting program basics at appropriate venues/meetings and grow our provider pool.● Schedule one on one meetings with potential providers to share the goals of the programs we are funding
Onboarding New Providers	<ul style="list-style-type: none">● Challenging for new providers to get up to speed quickly	<ul style="list-style-type: none">● Establish a grant for current, high-performing providers to mentor new providers● Develop written materials for all programs, tailored to new providers, outlining purpose, requirements, case management expectations, etc.● Launch trainings and Learning collaboratives for all new providers to learn together● Ensure all programs have access to start up funds and that these funds are sufficient
Expanding Current Providers	<ul style="list-style-type: none">● Providers are not always given clear indication of expansion asks ie. Number of units, timeline, etc.● When asked to expand, it is important that expansion be able to support additional staff and keep in mind it takes time to onboard new staff● Lack of clarity regarding how many new staff can be hired when asked to expand● Lack of written protocol for provider expansion	<ul style="list-style-type: none">● Develop written protocol outlining process for current providers to expand when asked by DHS including phased growth projections (ie. Each month we grow number of matches to allow you time to grow), lump sum payments at the outset to allow for hiring and preparing for expansion, etc.● Explore lending DHS case managers to providers who are expanding but may need time to onboard new staff
System Efficiencies		<ul style="list-style-type: none">● Utilize an evaluation tool to help identify PSH clients who can graduate out of case management if CM services are no longer needed

Homeless Services Capacity Building

- Review RRH cases monthly to understand who has the income and support in place to graduate from RRH in advance of 12 months
- Explore implementing CTI model across RRH programs
